1. Qualitative Information about consolidated earnings results for the quarter under review

(1) Qualitative Information about consolidated operating results

In the third quarter cumulative period, signs of recovery have been seen in the Japanese economy as a result of the demand for restoration from the Great East Japan Earthquake. On the other hand, the future of the economy remains uncertain due to the financial problems in Europe and concern of economic slowdown in emerging economies.

In the medical environment industry, the remuneration for medical treatments has increased slightly from April, but an effective and efficient reformed management is still required to go forward.

As a result, the Group posted a consolidated net sales of 66,246 million yen (up 4.5% on a year-to-year basis), operating income of 6,343 million yen (up 1.7% on a year-to-year basis), ordinary income of 6,384 million yen (down 1.1% on a year-to-year basis), and a net income of 3,654 million yen (up 3.3 % on a year-to-year basis) in the third quarter.

A. Physiological diagnostic equipment segment

While the sales of ultrasound diagnostic systems and vascular screening systems continued to increase, sales of blood-cell counters decreased.

As a result, consolidated net sales were 17,319 million yen (up 3.9% on a year-to-year basis).

B. Patient monitoring equipment segment

Sales of patient monitoring equipment increased.

As a result, consolidated net sales were 5,426 million yen (up 2.7% on a year-to-year basis).

C. Medical treatment equipment segment

While the business of renting medical equipment for home treatment and sales of Automated External Defibrillators (AEDs) continued to increase, sales of ventilators decreased.

As a result, consolidated net sales were 28,228 million yen (up 4.3% on a year-to-year basis).

D. Consumables and other products segment

In this segment, we mainly handle recording paper, disposable electrodes, and consumables used for devices handled in the above segments, as well as maintenance and repair services.

Consolidated net sales for this segment were 15,271 million yen (up 6.4% on a year-to-year basis).

(2) Qualitative information about consolidated financial situation

Total assets were 103,889 million yen at the end of the third quarter under review, down 3,136 million yen from the end of the previous fiscal year.

The main factors are a decrease of 6,523 million yen in "Notes and accounts receivable-trade" despite an increase of 1,860 million yen in "Property, plant and equipment" and an increase of 946 million yen in "Merchandise and finished goods".

Liabilities amounted to 25,691 million yen, down 3,487 million yen from the end of the previous fiscal year.

This is primarily because of a decrease of 1,620 million yen in "Notes and accounts payable-trade" and decrease of 1,161 million yen in "Provision for bonuses".

Net assets were 78,197 million yen, up 351 million yen from the end of the previous fiscal year.

The main factors are an increase of 2,154 million yen in "Retained earnings" despite an increase of 1,266 million yen in "Treasury stock" and a decrease of 559 million yen in "Valuation difference on available-for-sale securities".

(3) Qualitative information about consolidated earnings forecast

Due to the steady sales achievement until the third quarter, there is no change at this moment in the forecast of the financial results for the full fiscal year which we announced on May 15th, 2012.

The forecasted financial results described in this material are based on information available at the time of announcement. Actual results may differ from the results projected and presented hereby for a variety of reasons.

- 2. Summary information
- (1) Change in significant subsidiaries during the period Not applicable.
- (2) Application of special accounting methods for the preparation of the consolidated quarterly financial statements

 Not applicable.
- (3) Change in accounting policies, accounting projections, and restatement

(Change in accounting policies that are difficult to separate from changes in accounting projections)

According to the revision of the Corporation Tax Act, the Company and its consolidated subsidiaries in Japan changed the method of depreciation to the one based on the revised Corporation Tax Act for "Property, plant and equipment" acquired after April 1st, 2012, effective from the first quarter under review.

The effect of this change on the operating income, ordinary income and quarterly net income before taxes for the third quarter under review is minimal.
