

Notice for Investment into Stent Development

March 6, 2009

Company name: Fukuda Denshi Co., Ltd.

Security code no.: 6960

(<http://www.fukuda.co.jp>)

Listing: JASDAQ

Representative: Kotaro Fukuda, President & CEO

At the Fukuda Denshi board of directors held on February 26, 2009, a decision was made to invest in stent development, and payment of the investment amount was completed on March 5, 2009.

1. Summary of the company

Company name: Japan Stent Technology Co., Ltd.

Location: 5303, Haga Okayama Japan

Representative: Teruo Yasui, President & CEO

2. Purpose of Investment

Recently, coronary stents have become increasingly important as devices in the treatment of ischemic heart disease, and this investment into new stent development will strengthen Fukuda Denshi's overall position in the circulatory organ field. Japan Stent Technology Co., Ltd. accepted this investment. This company is currently using new and innovative systems to develop higher-performance stents than those in use today. This field has been cited as one theme for Super Clusters (Super Clusters for Innovative Medical Treatment) promoted by the government.

3. State of Investment

Investment amount: ¥200 million

4. Forecast of consolidated financial results

The effect of this investment on the consolidated financial results for the term ending March 2009 is minimal.
